MIDNIGHT MADNESS MADE AN IMPACT

Fredericksburg, VA (September 4, 2015) – City of Fredericksburg Parks and Recreation, Police, Schools and Councilman Charlie Frye Jr. spent their summer making a positive impact on local teens. The Summer Midnight Madness Series, which was held at Walker Grant Middle School June 19, 2015 to August 28, 2015, provided a safe haven for over 120 kids that were enrolled in the program.

An old tradition brought back to life by [Councilman Charlie L. Frye, Jr., Ward 4](#) (pictured below with [Congressman Rob Wittman](#) at the program), gave City kids something to look forward each week. His goal was to provide the kids with a safe outlet so that they would not be tempted with being in the streets causing trouble.

This program could not have been successful without support from Pepsi and Mary Washington Healthcare or the many volunteers who gave up their Friday nights to support this program.

A special thanks to Tom Hayden and Kisha Frye who were there week after week volunteering their time for this great program. For more information Midnight Madness, click [here](#).
