

**Sole Source Procurement Declaration**  
**Fredericksburg City Code § 2-361(d)**  
December 3, 2015

Department:

Fire & Police & Sheriff

What is being procured:

Public Safety Radios & Related Equipment, Software, Training, and Warranty

Selected vendor:

Motorola Solutions

Contract amount:

Base of \$2,723,431. Possible addition of \$68,473 for additional consoles in the Mobile Command Center depending upon future funding.

Date of Award:

The City proposes to submit this for City Council approval at their Tuesday, December 8, 2015 meeting. If Council approves the Contract, the staff will finalize and award no later than December 21, 2015.

Why this is only practicably available from one source:

The City of Fredericksburg is entering into an agreement with Stafford County to join the County's public safety radio system, which represents a substantial upgrade in coverage and reliability from the City's existing system. Upgrading the City's public safety radio system is a City Council initiative during the current term, and is an urgent public safety priority. Stafford County currently contracts with Motorola Solutions for their radios and equipment, and the agreement specifies that the City will use the same equipment. Motorola Solutions is a long-standing and reliable provider of public safety radios and related consoles and other equipment;

Department head (initials):

City of Fredericksburg, Virginia
