PUBLIC HEARING

New Applications

- A. COA 2021-01 – 1116 Prince Edward Street – Jan and Bjorn Bieneck request to remove two sets of concrete entry steps at this single-family residence and install new brick steps at the primary entry.

The applicant was not present. There were no public comments.

Ms. Irvin asked staff to clarify with the applicant the brick bond or pattern that would be used for the steps. Chairman Gerlach recommended the use of sandstone over brick if possible.

Ms. Weitzman said she was not certain that the stairs were in poor enough condition to need replacing. If they are to be replaced, the riser heights should be modified to meet the threshold.

Ms. Ross noted that sandstone would be appropriate for use, but that brick was acceptable as well.

Ms. Schwartz noted that she would follow up with the applicants on these questions. The application will be included on the February 22, 2021 meeting agenda for action.

- B. COA 2021-04 – 407 Charlotte Street – Paul Janney requests approval of the site planning, scale, and massing of two three-story townhouses to be constructed on this vacant lot.

The applicant was present. Mr. Janney said he was working on additional diagrams and supporting documentation as requested by staff.

Mary Maher, 409 Hanover Street, submitted written comments in opposition to the application.

Jon and Anna Mozena, 402 Hanover Street, submitted written comments in opposition to the application.

Brandy Butler and Todd Holbert, 701 Prince Edward Street, submitted written comments in opposition to the application.

Kaitlin Cannavo, 405 Hanover Street, submitted written comments in opposition to the application.

Gaynelle Chewning Scott, 404 Hanover Street, submitted written comments in opposition to the application.

Bode Scott, 404 Hanover Street, submitted written comments in opposition to the application.

Jeanne Bergerud, 408 Hanover Street, submitted written comments in opposition to the application.

Ms. Irvin said she was in support of continuing the application and agreed that more information was needed to show the building in context. She noted that this was a challenging lot and that the significant front setback was out of character for the area. More information is needed to understand the grade of the site better as well.

Ms. Weitzman encouraged the applicant to redesign parts of the proposal. She commended the applicant for committing to retaining the historic walls, but said that the location of the structure in the middle of the block was out of context. Taller buildings are located in the vicinity, but the greater height directly behind smaller houses is unusual. The height could be mitigated by considering a number of design options including eliminating interior garages, creating an English basement and raised entry, and altering the roof form.

Ms. Ross said that the neighboring parking lot was historically the site of modest frame worker housing. This lot has always been vacant and new construction here needs to better reflect the neighborhood character.

Chairman Gerlach agreed that the proposal would need work before it could be approved. He referenced several sections of the Historic District Handbook and noted the need to reference examples on surrounding blocks due to the lack of context at the site. One full story would need to be removed from the design to make it consistent with the neighborhood. He also asked the applicant to clarify how height measurements were taken and to verify these.

Chairman Gerlach asked if Mr. Janney would be open to a work session on the project on February 22. Mr. Janney agreed.

Ms. Weitzman made a motion to continue the public hearing to March 8, 2021 to allow the applicant to provide additional information. Ms. Irvin seconded. The motion carried 4-0.

C. COA 2021-02 – 919 Caroline Street – Fence Installation

The applicant was not present. There were no public comments.

Ms. Ross said that her general concern with wood fences is ensuring that the finished side of the fence would face the public right of way. Ms. Ross motioned to approve the application with the recommendation that the finished side of the fence faces toward the street. Ms. Irvin seconded. The motion carried 4-0.

D. COA 2021-03 – 227 Charles Street – Fence Installation

The applicant was not present. There were no public comments.

Ms. Weitzman motioned to approve the application with recommendations to paint or stain the wood fence once weathered sufficiently and to ensure that the finished side faces out. Ms. Ross seconded. The motion carried 4-0.

E. COA 2021-05 – 110 Caroline Street – Fence Installation

The applicant was not present. There were no public comments.

Ms. Irvin asked if the recommendation would apply to the side property line as well. Ms. Ross agreed. Ms. Irvin motioned to approve the application with the recommendation that the finished side of the fence would face out. Ms. Weitzman seconded. The motion carried 4-0.
