Report of Director of Public Transit:

- Ms. Beck reported to the board that FRED Express, the late night Thursday and Friday service and the service on Saturday and Sunday, which is supported by The University of Mary Washington, has changed its name to Eagle Express. This was done after meeting with students at the University, and with the approval of the University, making the students feel this service is more their own. Ms. Beck showed the board members the pocket schedules for this service, as well as promotional Frisbees and the Eagle Express signs. Advertisements for this service will be in the University’s newspaper, The Bullet, on WFLS, and in The Free Lance-Star. Brochures are scheduled to be delivered today for the service. Mr. Pearce thanked the FRED staff for making this change.
- Mr. Levine reported that staff has received the full draft of the Transit Development Plan and have given their comments to Connetics Transportation Group. Overall, it calls for the doubling of service and money will be needed. This Plan will be presented to City Council on September 14th.
- Mr. Levine notified the Board that FRED staff will be requesting funds from the State for technology software. At this time, there has been favorable feedback from the State.
- An ad will be placed in The Free Lance-Star for the Title VI plan that was submitted to the Federal Transit Administration.
- Ms. Kimball reported to PTAB that the appraisal package for the purchase of the proposed maintenance facility has gone to the Federal Transit Administration (FTA). FRED can proceed once the FTA reviews the package and replies to FRED staff. The appraisal was a little low; the assessed value by the appraiser was \$1,700,000 and the tax assessed value is approximately \$2,200,000.
